

For the calculations and development of drawings for the project should be provided all the dimensions of the heated and non-heated areas! Please select one of the items for each question below.

1. **Operation voltage:** _____ V
2. **Maximum power supplied to the house or structure:** _____ kW
3. **Desired area for ice and snow melting:**
 - Mastic asphalt
 - Road/concrete asphalt
 - With thermal protection layer
4. **Heating elements installation area (for walkway, driveway, ramp):** _____ m²
5. **Thickness of pavement above heating element:** _____ cm
6. **Outside air temperature:** _____ °C
7. **Thickness of the insulation:** _____ cm
8. **Water drainage system near the house, garage, driveway etc.:**
 - No
 - Yes (specify the location on the drawing)
9. **Control system:**
 - With a temperature sensor
 - With an integrated temperature and moisture sensor(s)
10. **Comments and Special Remarks:**
